Introduction

Welcome to your Rental Condition Log. This document records the current condition of your hired caravan before your rental begins. Just like when you hire a car, we document any existing marks, issues, or repairs to protect both parties.

This report shows:

- Current condition and any existing marks
- Recent history of repairs and maintenance
- Known issues
- Available accessories
- Safety features

Please review this document carefully before starting your hire and let us know if you notice anything that isn't listed here.
